

Cardiac Center of Excellence

HARMONIZING HUMAN AND ARTIFICIAL INTELLIGENCE FOR FASTER, MORE PRECISE CARE

Why Choose 3DR Labs?

Cardiac CT and MRI are fast becoming front-line tools for the evaluation and management of cardiac disease. Radiology departments will soon be facing significantly increased demand for these highly specialized studies. To address this growing demand, 3DR Labs has established a **Cardiac Center of Excellence.**

By dedicating a team of highly skilled and experienced radiologic technologists, 3DR Labs provides customers with advanced post-processing services of the highest quality. With shortened turnaround times for these analyses, physicians will receive the information they need to diagnose and care for their patients faster. 3DR Labs is proud to address the growing demands on the market with our dedicated Cardiac Center of Excellence.

Our Services

- 24/7/365 dedicated cardiac support
- Consistent, high-quality images
- Fast turnaround time
- Scalable on demand
- Alleviates staff training and shortage concerns
- Cost effective

Advanced Specialty Team

- Physician advisors and technologists dedicated to post processing CT and MR cardiac exams
- Extensive experience in cardiac anatomy, disease processes, and image evaluation
- Specializing in processing the most technologically advanced cardiac imaging procedures

3DR LABS

Cardiac Center of Excellence

HARMONIZING HUMAN AND ARTIFICIAL INTELLIGENCE FOR FASTER, MORE PRECISE CARE

3DR Labs is proud to offer 3D post-processing a wide range of CT and MR cardiac exams. Please see a full list of our cardiac services below.

- CCTA
- CFA LT/RT
- CT Cardiac Functional Analysis
- EP Planning/Pulmonary Vein Mapping
- Pre-op Left Atrial Appendage
- Pulmonary Artery 7 Measurements
- Iliac Access Measurements (Arterial)
- Post-op Left Appendage
- CABG Redo
- Triple Rule Out
- Calcium Scoring
- Aortic Valve Calcium Score
- Mitral Valve Calcium Score
- TAVR
- TAVR Post-Op
- TEVAR
- TMVR
- Tricuspid Valve
- MR Cardiac Perfusion (TSI)
- MRI Atrial Function
- MRI T2 Mapping
- MRI Cardiac Function
- MRI 4D Flow
- MRI T2* Cardiac Analysis
- MRI DSI
- MRI 2D Venc Flow
- MRI T1 Mapping
